Why use a U-lock?

The Department of Public Safety strongly recommends the use of a U-lock to properly secure your bicycle to bicycle racks because U-locks are nine times more effective at preventing theft than traditional cable or chain locks. So even if you have a cable or chain lock, consider picking up and using a U-lock.

The Department of Public Safety uses U-locks to properly secure our bikes. We also register our bikes to help deter theft and aid in recovery in the event a bicycle is stolen. Bicycle registration is fast and free!
